Mold Chutes & Skirts

Standard Mould Chutes

Mould Chutes are made of durable plastic and are of rugged construction. The inserted hard PVC lining in the bottom is held in place with nylon screws that protect even the most delicate moulding.

Mold Chute are easily cleaned using simple household cleaners. There are no concertina folds to trap moldings or dirt. The material used in the construction will not absorb oil or grease and is abrasion, puncture, and tear resistant.

Mold Chutes come in 18 standard sizes with in-line or side exit delivery chutes.

Soft Drop Chutes

Soft Drop Chute provides the solution where delicate parts have to be moved gently from the mould to the conveyor or packing box.

Soft Drop Chutes can be manufactured in to almost any size and configuration and dividers can be incorporated to keep parts separated and prevent them bumping against each other

Soft Drop Chutes are easily cleaned using simple household cleaners. There are no concertina folds to trap moldings or dirt. The material used in the construction will not absorb oil or grease and is abrasion, puncture, and tear resistant.

Soft Drop Chutes are custom made to order to fit customer's specific applications

Mould Skirts

Mould Skirts provide a professional solution to how materials are handled from the mould to the conveyor they enable products to drop cleanly to the conveyor alleviating contaminated or damaged parts.

Mould Skirts are supplied in a range of sizes to suit all machines and each is adjustable to cater for differing mould and conveyor configurations.

Mould Skirts attaché with magnets and Velcro fasteners making them quick and easy to instal and remove.

Mold Skirts come in a complete range of standard sizes, should one of these standard size skirts not meet your needs, or if you require a special tapered mold skirt, they can make specifically to order to meet your requirements.

Call us if you need advice on the best solutions for your application we will you with details on the full range of standard chutes and other IPS

Benefits of Chutes & Shields

- Scrap Reduction • Contamination Elimination • Improved returns
- Easy Installation • Useable on Other Presses •
