Moldtech Z11 Nozzle Heater Bands

Z11 Brass Band heaters are designed for use in non corrosive environments and where space is not a limiting factor, they are hermetically sealed from the ingress of liquid plastic in the event of a mold leakage.

Features:

Working Temperature 300 / 320°C
Max Diameter 110mm
Lead Length 2000mm
Standard Operating Voltage 230V

- Specific Wattage 6W/cm²
- Max Width 60mm
- Standard Lead exit = Axial 45°
- Other Voltages on request

Construction:

Brass Tube
Ni-Cr 80/20 wire
Flexible Bipolar lead c/w Earth Wire

- Hermetically Sealed
- Continuous Mica Insulation
- Alternate lead exit options available
